

TWO MUTILATED BODIES FOUND

A. Freyer and Sister Are Murdered

Near Home at Rosedale, Md.

BALTIMORE, October 18.—A double murder was discovered late yesterday when the mutilated bodies of Andrew Freyer, fifty-seven years old, and his sis-

ter, Marie Freyer, forty-eight, were found near their home at Rosedale, Baltimore county. Apparently they had been lying in an out-of-the-way place for several days.

An effort had been made to destroy the man's body by pouring oil on it and setting it afire. Evidently the house had been robbed of everything of value. The ground in front of the house was torn up and a heavy log, bespattered with blood, lay at Freyer's side. His skull

and that of his sister had been fractured. The bodies were discovered late Monday afternoon by a man who gave his name as Eliota. A posse searched the woods for miles around, but at a late hour there had been no arrest.

Shoots Her Son, Then Ends Life.

DETROIT, Mich., October 18.—Mrs. Elizabeth Adams, thirty years old,

guest at a local hotel, yesterday afternoon shot and killed her five-year-old son Harold, and then committed suicide. She was found in her room, with the child lying at her side. One shot had been fired into the boy's breast and two into the woman's head. The hotel register did not show Mrs. Adams' home address. No motive is known for the act.

D. C. HEADS SPEAK AT PARK VIEW FETE

Commissioner Newman Says Last Appropriation Act Is Best Ever Enacted.

LARGE CROWD IS PRESENT

Praise of Congress for the appropriation act under which the District of Columbia is now operating was voiced last night by Commissioner Newman in an address before the Park View Citizens' Association. He labeled it the "best ever enacted for the District."

Commissioner Brownlow also addressed the association, which met in the assembly hall of the new Park View School, Newton and Warder streets. The occasion was "Commissioners' night," but Engineer Commissioner Kutz was unable to attend, on account of an engagement previously made. Municipal Architect Snowden Ashford, who designed the building, was the only other representative of the local government to participate in the proceedings.

Large Crowd Attracted.
The second night of the five-day fete which the association is conducting in commemoration of the completion of the building and the paving of Georgia avenue attracted a large crowd. President John G. McGrath of the association presided.

After referring to the good work the association is doing in developing community spirit, Commissioner Newman dissected the appropriation act in proof of his assertion that it is the best legislation of its kind ever passed for the District. He mentioned the provision for biennial assessments, police and firemen's pensions, appropriations for municipal lodging house, commencing work on the reformatory and completing municipal fish market, liberal appropriations for new school grounds and additions to buildings, for new aqueduct bridge and Anacostia flats reclamation work, and other features.

Congress, he said, is a friend of the District and is providing for its needs in generous and intelligent fashion.

Cites Community Spirit.

Commissioner Brownlow said that the people of Park View have developed a community spirit which not only enables them to work together for their common advancement, but is winning recognition from other civic bodies and creating a wholesome influence that promises much for the entire city of the capital. He declared that there is a new spirit in education in the United States, and that the Park View community is interpreting this spirit in an effective and commendable way. The new school building itself, he asserted, was the symbol of the greater educational life being brought to the people of that community.

Municipal Architect Ashford spoke briefly of the preparation of plans for the building and how he had purposely designed the structure in order that it might serve as a community center, for the instruction of youths as well as the construction of adults. Previously, Commissioner Newman had stated in his address that Mr. Ashford was principally to be thanked for the development of the social center idea in Park View in view of having designed the building so that it might be used by the entire community.

Thanks Association's Friends.

In addition to the guests of the evening, officials of the association and chairmen of committees occupied seats on the stage. President McGrath, in his introductory remarks, thanked some of the association's outside friends for their efforts to make the celebration a success. He mentioned William F. Gude, who donated the decorations; Clarence P. King, president of the Washington Railway and Electric Company, who contributed \$200; William E. Shannon, who has asked to be allowed to make good any deficit in the fund, and others.

Musical numbers, directed by Mrs. E. J. Ward, who played the accompaniments, interspersed the addresses. A piano duet, by Miss Cora Yocum and Miss Jeanette Howard, pupils of Miss Zella L. Miller, was a feature of the program. Mrs. James Kerr gave a contralto solo and Mrs. Helen F. Molster a reading, both being required to respond to an encore. At the conclusion of the program a community dance was held in the library.

Tonight members of the board of education and teachers will be given a reception, while members of civic organizations are to be entertained tomorrow night. The festivities will close Friday night with a community "get together" meeting.

Much Interest in Parade.

Much interest is being taken in the plans for the community parade to be held Friday afternoon. Oscar W. B. Reed heads the committee which is arranging for this feature. The parade, forming at the Park View School, will start at 5 o'clock, going south on Warder street to Irving, west on Irving to Georgia avenue, north on Georgia avenue to Hook Creek road to Warder, south on Warder to school building and disperse. There are to be a total of eleven sections, with sections 9 and 10, respectively, reserved for all the women and all the men of Park View. Each section is endeavoring to recruit to its full strength in order to make the best showing. There also will be a section for babies in carriages. Numerous prizes will be awarded to the best features.

WILL MAKE HIS DEBUT AS A PUBLIC LECTURER

Engineer Commissioner Kutz to Give First Illustrated Talk Thursday Night.

Engineer Commissioner Kutz is planning to make his debut as a lecturer tomorrow night. While the District engineer official frequently has addressed citizens' associations, he will give his first illustrated lecture Thursday night, at a meeting of Capital Traction Company Section, No. 8, American Electric Railway Association. The meeting will be held in the assembly hall of the building at 8th and M streets northwest, and all employees of the company, whether members of the section or not, are invited to attend.

Col. Kutz will talk on "Some Phases of the Engineering Work of the District," and has prepared a large number of slides depicting the operation of various branches of the District government.

In addition to his address, the program provides for the annual election of officers of the section and other features of an entertaining character which promise to attract a large attendance.

SEVEN PERISH IN FLAMES; PROPERTY LOSS, \$250,000

NEW YORK, October 18.—Seven persons were burned to death and two others who are missing are feared to have lost their lives in a fire which destroyed two factories in the manufacturing section of Queensborough late yesterday, with a material loss estimated at \$250,000.

The charred bodies were not found until the flames had been extinguished and firemen were pouring water into the ruins of the buildings. All those burned were employed in the plant of the Oakes Dye Manufacturing Company, where the flames started. The known cause of the fire was a defective gas valve in the boiler of a steam engine. Harry C. Cook, married, treasurer of the Oakes company.

Frederick Christman, head bookkeeper of the company, Robert Vogel, assistant bookkeeper, Misses Kienel, bookkeeper, Misses Daubmann, bookkeeper, Miss E. Faurnann, stenographer, Miss E. Gears, stenographer, The fire started among chemicals on the first floor of the Oakes building and spread with such rapidity that the office force was trapped on the second floor.

Society Brand Clothes

FOR YOUNG MEN
and Men Who Stay Young

ALL WOOL materials are used in these clothes. All fabrics are tested for durability and fastness of color. These tests satisfactorily passed, each piece is carefully shrunken twice, and then examined inch by inch by a trained inspector before being tailored.

It is attention to these and many other details, combined with faultless style and un-

surpassed workmanship and quality, that have made Society Brand mean "perfect clothes." Yet you pay no more for these than you do for others that lack these distinctive features. They have at last supplanted the finer tailor-made clothes. Ready-to-wear, at \$20 to \$50.

If you seek that extra quality of fabric, ask for "Double Service" Clothes, sold at \$30 and up.
